

Participation Guidelines:

● Participation Requirements

- 1. Only regionally accredited academic institutions may participate.
- 2. Authorized delegates such as faculty professors, advisors, lecturers or in-house recruiters may represent institutions.
- 3. No third party recruiters are allowed. The PhD Workshop exclusively promotes direct delegate-to-candidate interviews and meetings.
- 4. Only two delegates are permitted any time at one table during the workshop. If more than two delegates are expected, an additional table should be booked.

● Feature Your Institution and PhD Programs:
Online Webinar Presentation Opportunity

Separate 60-minute online webinar presentation sessions to highlight your institution and featured PhD programs are available. The webinar will be running before the PhD Workshop, so that you could better promote your PhD programs, and attract target candidates to fulfill profound interviews and meetings with professors and delegates onsite. Attract more candidates online ahead of time and conduct efficient interviews & meetings onsite, so early reservations are essential.

● Registration Payment

Following the receipt of the registration, we will send you the confirmation and invoice by email. Payment should be made by the date indicated on the invoice. The registration can only be processed once full payment is received. As the workshop may be fully booked before the registration deadline of **August 25, 2025**, "first come, first pay and first served" policy applies.

How to Register?

Visit the official website www.phdworkshop.cn for easy online registration, or complete the enclosed Registration & Contract and email us accordingly.

CHINA EDUCATION ASSOCIATION
FOR INTERNATIONAL EXCHANGE

Established Event and Key Performance

Launched in 2009 by China Education Association for International Exchange (CEAIE), the PhD Workshop China has grown into a platform connecting overseas institutions and professors with prospective PhD candidates.

The 2024 edition combined online Webinars and offline in-person interviews, the Webinars attracted more than 1,500 attendees averagely per session, while the offline workshop fosters direct interaction and targeted interviews, drawing more than 50 professors/delegates from more than 20 institutions from 8 countries attended separately in Beijing and Shanghai, and more than 2,000 pre-registered students. They arranged over 3,000 meeting requests and nearly 1,800 successful interviews conducted onsite.

These figures highlight the PhD Workshop's role in matching qualified candidates with your excellent doctoral programs. And this dual approach also helps institutions tap diverse applicant pools and conduct thorough evaluations within a flexible schedule.

Chinese Government Scholarship Support

In order to encourage top-notch students to further their PhD study and research outbound, the China Scholarship Council (CSC) under Ministry of Education will continue to fund around 6,000 doctoral candidates, covering full-time PhD, joint-training, and short-term research scholars. Additionally, CSC cooperation programs also provide nearly 10,000 placements, including partnerships like CSC-Cambridge and CSC-DAAD as well as others.

By integrating initiatives, these programs offer expanded funding channels for qualified applicants seeking doctoral studies abroad, which are powerful support with financial aid and creates great international opportunities for candidates. What's more, the PhD Workshop China will be your reliable and right place to find out these brilliant candidates fitting for your PhD and research programs.

Discover Future Talents through Top Universities Network

Through partnerships with more than 100 Chinese universities, the PhD Workshop China ensures broad visibility among top graduate students. Each year, about 3,000 candidates register, reflecting the event's standing as a prominent PhD recruitment platform. Prior to the PhD Workshop, event details were shared through official university channels, prompting high-quality applications and active participation.

This collaboration allows professors and delegates to engage with well-prepared PhD applicants from across China's academic community. Whether you're near or far, your connection to our PhD Workshop China remains a vital part of who we are, and we are so proud to count you as a valued delegate of our community to discover future talents for your university and for the academic world.

Smart iSchedule System Facilitating Your Interviews and Meetings

The iSchedule Appointment System has been created over the past 16 years and polished year by year since the PhD Workshop China setup in 2009, as the PhD Workshop advocates direct interviews and meetings between professors/candidates and PhD candidates, where professors/candidates could make profound in-person interviews and recruitment of qualified students for specific PhD programs.

This innovative and intelligent iSchedule system enables professors not only to preview candidate registration details, such as CVs and research proposals, but also to select right candidates efficiently for one-on-one onsite interviews or meetings. This approach greatly facilitates the productivity of participation for professors and candidates. We are excited to continue supporting you in your academic and professional endeavors.
